Departure Date:

## When Booking Cruise

☐

Decide if you are going to purchase travel insurance. To qualify for full coverage you almost always have to buy travel insurance within 15 days of booking your trip. It can be a good safety net for all your costly non-refundable purchases.

## 90 Days Before Cruising

☐

Apply for a Passport or track down your Passport and/or other required travel documents. Check with your cruise line for their specific requirements. *\*CRUISIN always recommends travelling with a Passport, even if it's not required.*

## After Final Payment Is Made (typically 30 to 90 days before cruising)

☐

Print out any boarding passes / luggage tags and anything else your cruise line may issue to you online.

☐

Make a new cruise playlist for your phone/iPod. Use it while traveling, onboard poolside, in the cabin, etc.

☐

Arrange for any accommodations you will need prior to and/or after the cruise.

☐

Arrange for any required shuttle service(s) to/from port.

☐

Arrange for any needed accommodations for your pets while away.

☐

Order any gifts/liquor/etc. through your cruise line. Cutoff date for pre-cruise purchases through a cruise line is usually one to two weeks prior to departure.

☐

Make doctor's appointment to get refills on any prescription medications.

☐

Book your shore excursions. The popular ones can fill up quickly. It is recommended you book them as early as possible.

☐

Make a packing list for the cruise (see general recommendations list below). Be sure to also check out the: [CRUISIN - Pre-Cruise Packing Guide](#) for additional recommendations and the [CRUISIN Amazon Storefront](#) for any needed items.
